

One Day Intensive Seminar

SBL Claimable Subject to HRDF Approval

Industrialised Building System in Malaysia: Innovations and Adoptions

Introduction

For a long time, the building industry has used the time-tested but labour intensive traditional approach in construction. As we enter the new millennium, technological advances will have a major role in changing the competitive work environment in the construction industry. As the demand for quality increases, the construction industry must invest in innovations and new technological techniques in construction.

Experience suggests that the Industrialised Building System (IBS) in most countries have satisfied the high expectations from consumers.

Outline

The seminar focus on the following topics in the area of:

- Different types of IBS available in Malaysia
- System formworks
- Precast concrete systems
- Structural requirements of precast systems
- Architectural elements of precast systems
- Future IBS systems
- Industrialised Building System structural analysis and design system development (super structures, substructures and jointing systems)
- Modular coordination
- Design codes and standards
- Construction methods and problems
- Development of new materials
- Architectural aspects and designs
- Government policies
- Environment issues and social aspects
- Legal and financial issues
- Robotics and automation
- Studies on labour reduction and quality enhancement
- Smart and intelligent features

20TH JANUARY 2010

JW MARRIOTT HOTEL,
KUALA LUMPUR

Conducted By Distinguished Panel of Speakers:

1. **Ar. Chan Seong Aun***
B. Arch (Hons) and M. Arch (Distinction)
(Victoria University of Wellington, New Zealand)
 2. **Ar. Jay Fung**
B.A. in Architecture and M. Arch
(University of California Berkeley, USA)
 3. **Ir. Dr. Zuhairi Abdul Hamid**
B.Eng. (Hons) Civil (UTM);
Master in Structural Dynamic Engineering
(Kanazawa University, Japan) and PhD in
IT Construction (University of Salford, UK)
 4. **Ar. Poul Bannow Mork**
Master's Degree in Architecture / Industrial
Design (Royal Danish Academy of Fine
Arts, Copenhagen)
- Invited
